Hi Mark!

Thank you so much for your great help in finding a new "great home" for my "Top Banana" T-28C! I couldn't have found a better new owner. Dan (new owner) is actually planning on keeping the "Top Banana" theme with the airplane, and has offered to let me still fly it if I'm ever up in his area. He also owns a T-34, so we definitely have that "connection," as well.

Starting with your awesome video that you made, plus coming out to view the airplane yourself was, in my book, very impressive! Thank you! I still love the way you ended the video with the statement: "Come on, you know you want one!"
GOOD ONE!

Thank you, as well, for support-
ing me through the 3-day out-of-town
pre-buy which was somewhat intimidat-
ing for me, and you were just a
phone call away everytime I called
with a question. You ALWAYS had the
best solution!! is

You're the BEST and thank you!
I've known you for nearly 40 years
(as my "long lost" brother) and it was
a privilege to work with you profession-
ally!

Very Sincerely,

Julie Clark +
